

Louisiana Man - Doug Kershaw (1961)

=====**CHORUS**

C F C
Louisiana man with a style his own

C F C
Not like some other men I've known

G
With his cowboy boots and his hats he wore so well

C F C
Caught my eye on the very first day

F C
And I never will forget the way

G C
He played guitar and he sang just like an angel

=====

^F C F C
Thoughts of you flicker past, goin' on down the road so fast

^Gv
The trees and the bushes and the telephone poles fly by

F C F C C
I never seem to have the time, I'll just have to keep you on my mind

G C
How I wish that I could keep you by my side **CHORUS**

^F C F C
Country man with a heart of gold, one more kiss before I hit the road

^Gv
Hold me one more time before I go

F C F C
Nights they will be longer now, but I'll find a way to get along somehow

G C
Cuz I've learned already how to do it all before
